FY2017

RECOMMENDED BUDGET

TO COUNTY COUNCIL

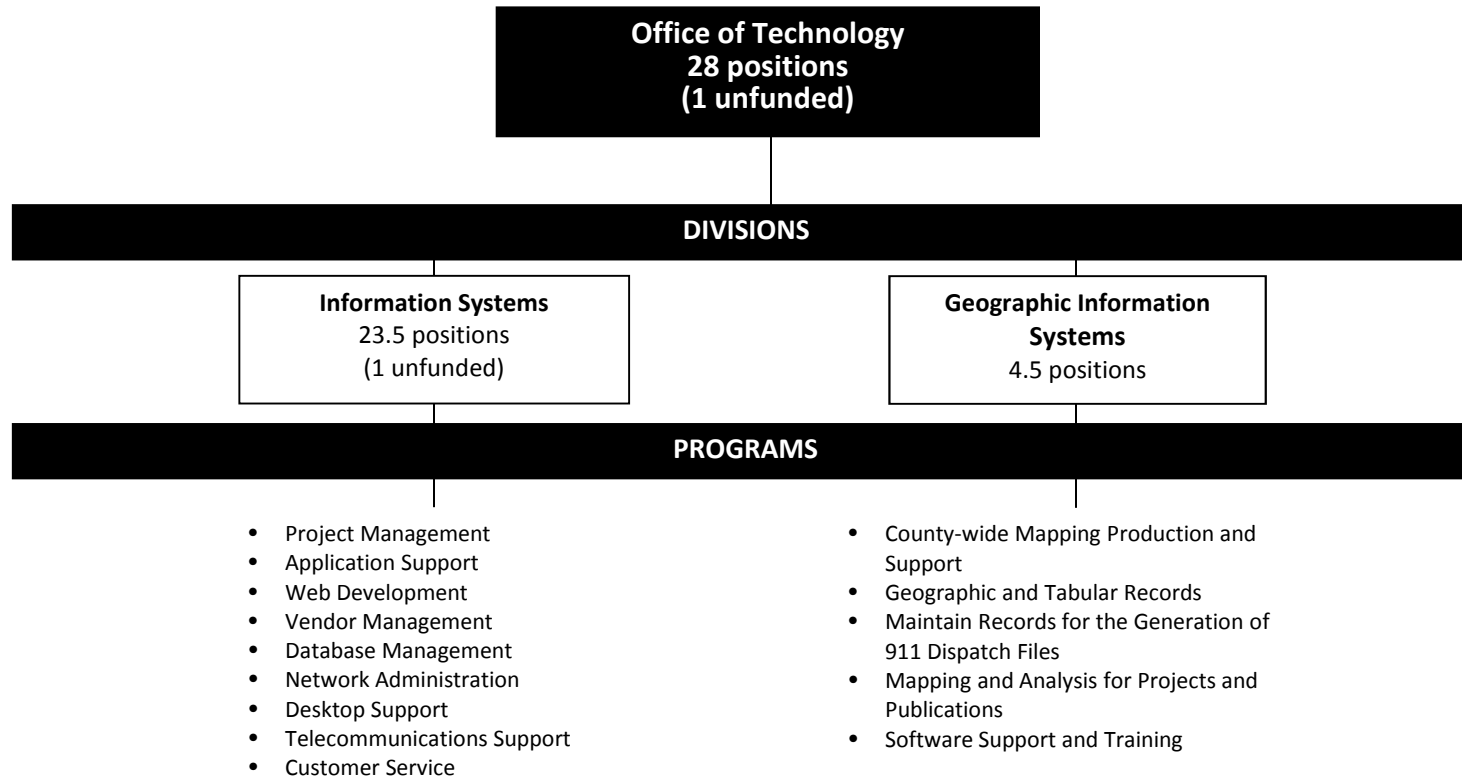

May 9, 2016

OFFICE OF TECHNOLOGY

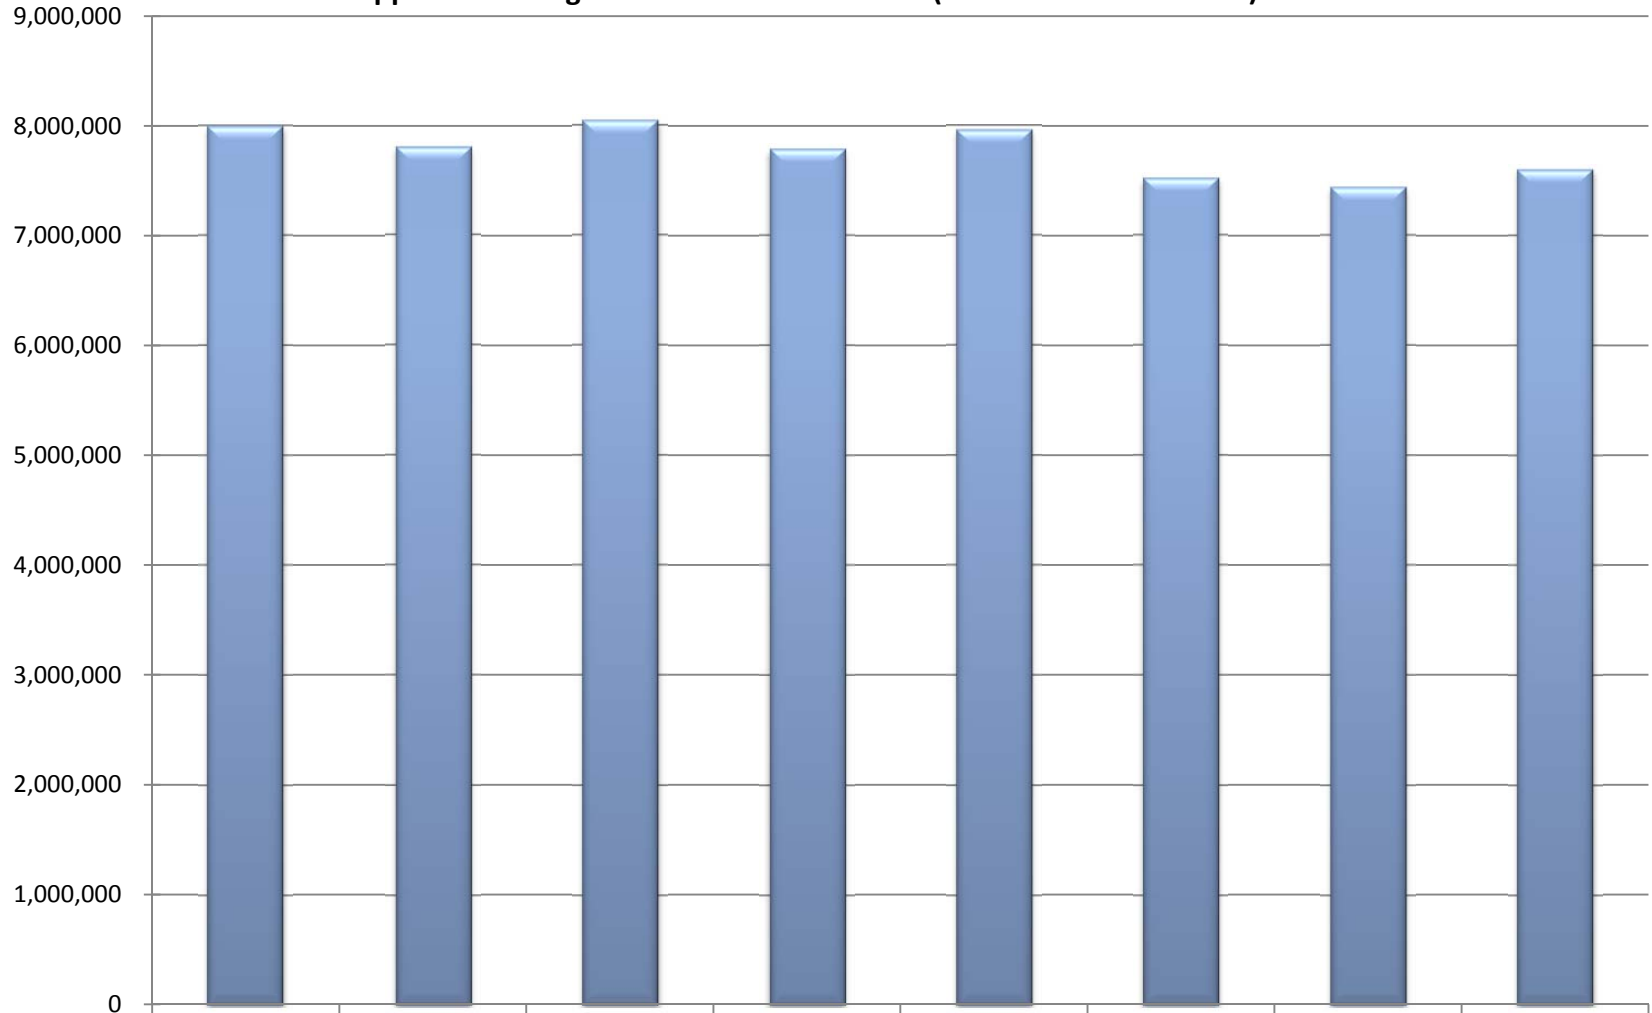

FY2017

MISSION

It is the mission of the Information Systems and Geographic Information Systems Sections of the Office of Technology to improve workforce productivity and increase citizen's access to government services through extensive use of information technology and the internet, and to provide internal support, planning and guidance on technology matters enabling New Castle County Government to provide essential public services in an efficient and cost effective manner.

FY2017 NEW/DELETED PROGRAMS/SERVICES**

NEW PROGRAMS/SERVICES:

None

DELETED PROGRAMS/SERVICES:

None

**NEW CASTLE COUNTY
OFFICE OF TECHNOLOGY
INFORMATION SYSTEMS, GEOGRAPHIC INFORMATION SYSTEMS
FY2016 ACCOMPLISHMENTS**

Information Systems

- Purchased new software suite (VMware product) to enhance security footprint for County data. This allows for active monitoring and security compliance with Industry standards.
- Purchased and installed new Sun servers for all Oracle databases and migrating off of older servers to allow for linked servers at both Data Centers for failover of databases.
- Began working to build active monitoring for Oracle Cloud Control – real time monitoring to act as proactive tool to ensure database(s) availability.
- Almost complete with a new version upgrade\migration to PeopleSoft application.
- Began migrating Anti-Virus software to new version with real-time malware and scanning to prevent PC infection. Product lowering maintenance costs to County.
- Review of all IS products and maintenance contracts resulting in saving across the board.
- Assisted in installing new software for electronic document submissions for Land Use (permits, plans...) along with company Avolve (ProjectDox OAS Software).
- Continued to roll out web services for application\desktops to remote sites (Libraries, EMS, Firehouses....).
- Implementing new solution for online time card and activity sheets for Public Safety - POSS.
- Implemented conditions to check credit reports for mortgage loans software.

Geographic Information Systems

- Integrated all of the GIS Data required for the New World CAD dispatch system, and modified the data structures to meet all of the needs of the Department of Public Safety.
- Migrated the Adobe Flex mapping applications into ArcGis Online Javaviewer applications ahead of the deprecation plan for Flex.
- Created and modified multiple mapping applications in support of Land Use field operations.
- Worked with the State to integrate our GIS data into a statewide repository for inter-governmental collaboration.

**NEW CASTLE COUNTY
OFFICE OF TECHNOLOGY
INFORMATION SYSTEMS, GEOGRAPHIC INFORMATION SYSTEMS
FY2017 CHALLENGES**

Information Systems

- Create a new solution to secure Public Safety investigative information and evidence data in fault tolerant environment as well as creating secure tunnel to share information with other agencies and Attorney General's office.
- Upgrade the email environment to Exchange 2016.
- Upgrade the Tier Financial system to later version, possibly replacing with another product.
- Explore the options of replacing segments of Hansen for various user departments (Land Use, Special Services, and Administration).
- Complete the upgrade of PeopleSoft used primarily by Human Resources and Payroll.
- Create database failovers between datacenters for all Oracle applications (SUN and HPUX).
- Hire more resources in order to meet both daily workflow and to implement new projects.

Geographic Information Systems

- Install an ArcGIS portal on our servers to host our ArcGIS Online applications, allowing for more control and flexibility on the development end.
- Create scripts to automate the data uploads to CAD, decreasing user time and increasing the frequency of updates.
- Create Dashboard applications for high level overviews of department level operations.
- Develop applications which will better support viewing on mobile devices.
- Restructure Geographic Information Systems, including job titles, to align positions according to their job duties.
